## EDUCATION

---

### **Rochester Institute of Technology, Bachelors in Computer Science**

Rochester, New York  
Expected: May 2020

- Relevant Courses: Intro to Software Engineering, Mechanics of Programming, Concepts of Parallel and Distributed Systems, Interactive Media Development, Web & Mobile 1, Analysis of Algorithms
- Languages: Python 3, Java, C#, C/C++, HTML/CSS
- GPA: 3.68

## EXPERIENCE

---

### **Intro to Software Engineering, Team Project — Head Developer**

January 2017 - May 2017

Developed and managed a web-based healthcare program for a hypothetical hospital network. Functionality includes gathering statistics on the inner workings of the hospital, signing up patients, making appointments, and allowing ease of transfer of patients and their information between hospitals.

### **RIT, Rochester, New York — Supplemental Lab Instructor**

August 2016 - PRESENT

Worked alongside professors teaching introductory computer science courses where students learn Python, Java, and get a look at in-depth algorithms and logic. Graded and debugged students labs and projects as well as mentored students in the computer science tutor center.

### **One Life Maps, Bartlett, Illinois — Front End Web Developer**

May 2017 - August 2017

Produced customer facing web pages in WordPress using HTML and CSS to create intuitive and accessible content. Converted files to different formats to save server space and enable a wider range of browser compatibility. Developed leadpages for a wide reaching marketing strategy.

### **Westminster Christian School, Elgin, Illinois — Summer Facility Manager**

Summer 2015, 2016, 2017

Undertook multiple facets of facility maintenance throughout the campus. Led team of 4 and worked closely with school staff in order to assure tasks were getting done in a timely and effective manner.
